

Developing agreements for Sierra National Forest

Project Title	Developing agreements for Sierra National Forest
Project Summary	Developing agreements between Sierra National Forest and its partners in order for both to do important work to help protect and conserve the beautiful forest.
Country	United States

Project Description

We are looking for a self motivated, articulate individual that has strong writing and grammar skills to help draft agreements for the Sierra National Forest. These agreements are put into place in order to accomplish beneficial projects on the forest. Students will learn the important process of how partnerships are formed and relationships are developed in order to conserve and protect our forests.
